Call for workshops
ADBIS, TPDL & EDA joint conferences
Lyon, France

August 25-28, 2020

http://eric.univ-lyon2.fr/adbis-tpdl-eda-2020/satellite-events/workshops/

Call for workshops

The workshop proposals should be up to 3 pages long and include the following:

- A concise title of the workshop.
- Proposed duration of the workshop (half or full day).
- The names and the affiliations of the organizers. The organizers should add a short biographical note with their areas of expertise and their experience in organizing workshops or related events.
- An outline of the workshop's objectives and targets. The outline should also address the workshop's:
    - theme and its main topics
    - the importance of the workshop in view of the conference and its relevance to ADBIS/TPDL/EDA.
    - format (the number of papers, the number of invited speakers, type of activities (e.g., short paper presentation, invited talk, demo, poster, etc.), and an approximate timeline (breaks should be synchronized with scheduled breaks if possible).
- The expected participants in the workshop. If the workshop has been organized before, either in the frame of TPDL or any other conference, the organizers should also report the previous attendance, the outcomes, any post-workshop publication venue, etc.
- A description of the workshop processes, such as the peer review process, a tentative list of PC members that have agreed or will be approached to serve the workshop, the timeline, advertisement, etc.

Authors are invited to submit their proposal by e-mail to adbis-tpdl-eda-2020-workshops@eric.univ-lyon2.fr
