

# Tanagra Website Statistics

(tools, course materials, tutorials,...)

**2016**

# How many are you?

Since **February, the 1<sup>st</sup>, 2008**, the date from which I installed the Google Analytics counter, there are **2,111,078** visits, **649 daily visits** on average [Note: The Tanagra website (software, tutorials, course materials) is online since 2004; my first website - this was for the Sipina project - dates back to 1995.].

01/02/2008

# Who are you?

The most of the visitors come from France and the Maghreb. Then, because some pages are in French (some pages are exclusively in French: free e-books, free on line course materials,...), many visitors come from French-speaking countries, among others from African Francophone countries. Among the other countries, we observe mainly USA, India, UK, Brazil, Germany,...

9. Ricco Rakotomalala's website	14 016 (3,36 %)
10. Cours Excel	13 159 (3,16 %)
11. Programmation Python pour les Statistiques et le Data Science	11 418 (2,74 %)

**From one year to another, the structure of the access remains about the same.**

These three pages of course materials are still popular and are at the heart of my activities. They are in French.

**36 posts** of course materials and tutorials in French (*10 in English, I know I must work in order to improve this number...*) for this year.

There are no update of Tanagra this year. But the maintenance and the support are carried out. I hope I can add new functionalities in 2017.

A new page - in French - about Programming and machine learning under Python this year. The accesses to the page seem promising....

# What about 2017?

**The same things, with more tutorials again, more free e-books,  
more online course materials,...**
